

4.2.1

Library is automated using Integrated Library Management System (ILMS) and has digitization facility

Kamaraj College of Engineering and Technology (KCET) established a spacious Central Library with a buildup area of 1981.08sq.min a pleasant environment. The Library has a mass an excellent collection of books, journals and non-book material sin Science, Engineering, Technology, Humanities and Management. It maintains separate collections of reference books and back volumes of journals, technical reports and compact discs. The library uses AutoLib OPAC (Online Public Access Catalogue) and the users can search the Library Online Catalogue by author's name, title, subject, and keywords available from the campus LAN. The total collection of library stands at 68436 volumes and 279 National and International Journals and Magazines.

Name of ILMS software	AutoLib
Nature of Automation	Fully
Version	AutoLib,Version V.22.01
Year of Automation	2022

The Institute installed Integrated Library Management System (ILMS) named "AutoLib" in the year 2022 for better library services. Library has provision of software such as AutoLib software with OPAC for students and faculty members to search books by title/author name etc.

AutoLib Software's flagship product is AutoLib Library Automation and Management software, which is the leading solution for academic institutions internationally and is a total Library Automation Solution Provider.

- Much of the works involved in library are repetitive, tedious, and mechanical in nature requiring accurate updating of records in files. The same bibliographic record in a library is used to perform multiple operations. Each operation may concern with individual copies of a title. A bibliographic record created at the time of ordering a document is first used for its acquisition, then for technical processing and subsequently for library OPAC, circulation, binding, etc.

Dr. K.P. SIVAKUMAR, Ph.D.,
LIBRARIAN
Kamaraj College of Engineering & Technology
(Autonomous)
S.P.G.C. Nagar, K.Vellakulam
Near Virudhunagar-625 701

- Automation permits decentralized access to a bibliographic record by multiple users. A staff member in a branch library can verify the status of an order without maintaining duplicate files or without making an enquiry. A user can check to see if a book is out on loan or available on the shelf of the Library.
- The application of information technology in libraries results in increased operational efficiency. It ensures ease of functioning, accuracy and economy in human labour with greater speed.
- The library staff, specially the younger ones, finds use of computers interesting and exciting. Use of computers can be a motivating factor for several library staff members; Leading Library & Campus management ERP solution Provider. The software can be used by IE and Mozilla Browser. Single database is used for Books, Book Banks, Conference Proceeding, Journals, Theses, Reports, Non-Book Materials and Back Volumes. We are member in INFLIBNET and also uploading the thesis in the website of Shodhganga, which is very helpful for our students to refer it for their project and other research work.
- In National Digital Library India All faculty and students are encouraged to be a member to make use of various E-Resources.
- We have membership in DELNET Library network which is very useful and make use Inter Library loan for books in various Universities and Research & Development Institutes.
- We have subscribed N-List journals which are very useful and make use our students and faculty members.
