ONLINE – SIX DAYS FACULTY DEVELOPMENT TRAINING PROGRAMME ON BLOCKCHAIN (WINTER 2022)

SPONSORED BY CENTRE FOR FACULTY DEVELOPMENT, ANNA UNIVERSITY, CHENNAI

2nd January to 7th January 2023

Summary Report

Department of Computer Science and Engineering organized an online six-day Faculty Development Training Programme on Blockchain (winter 2022) sponsored by Centre for Faculty Development, Anna University, Chennai from 2nd January to 7th January 2023.

Faculty Development should lie at the heart of any higher educational institutions to create and emphasise learner centred teaching. The main idea behind faculty development programme across the world is "upskill". The curricula of various programmes at many universities are updated to keep pace with the changing demands of the industry. Younger faculties who have graduated more recently may be better skilled, the experienced ones are the backbones of the teaching learning environment and academic administration at the universities.

In recent era, it becomes imperative to provide students with opportunities to upgrade their skills to meet the current expectations. With the orientation of the student body changing from theoretical to experiential learning, faculty development needs to focus on creating and emphasising learner centred teaching. The teachers role shifts from only lecturing to involving students in discussions, taking regular feedback and improvising. This shift received further impetus with the COVID-19 pandemic, which pushed teaching online and involve considerable use of technology. It also requires an upgradation of skills, especially for those faculties who are not tech-savvy.

As part of our social responsibility, we conduct FDTP as a learning platform for faculty to equip themselves with the latest tools and technologies. This year, the department decided to conduct the event in the month of January. With the acceptance from the institution, we got an opportunity to apply for funding from Centre for Faculty Development, Anna University, Chennai.

In the current situation, the need of the hour is fundamental understanding of Blockchain and the ability to appreciate and analyse new developments in the field of Blockchain as it is the foundation for immutable ledgers, or records of transactions that cannot be altered, deleted, or destroyed. We decided to plan an FDTP under the theme BLOCKCHAIN. We got a funding to meet up the expenses of speakers. We took efforts to find the best speakers in the country to share the current developments and their research experiences in the field of Blockchain. We also gave equal importance to teaching learning process, outcome-based education and stress management for the benefit of young faculty members. The various resource persons of the FDP are

- Dr.Raju Halder, Associate Professor, IIT, Patna
- Dr.Subhasish Dhal, IIIT Guwahati
- Dr.S.Geetha, Assistant Professor, Pondicherry University
- Dr.Kannimuthu Subramanian, Professor, Karpagam College OfEngioeering Coimbatore
- Dr.Kunwar Singh, Associate Professor, National Institute of Technology, Tiruchirappalli
- Dr.D.MalliKarjun Reddy, Blockchain Research and Lead, McKinley Rice, Noida
- Dr.Ramakrishnan Raman, Lecturer, Computer information system, Higher Colleges of Technology, Dubai
- Dr.S.Venkatesan, Associate Professor, IIIT Allahabad
- Dr. S.Shitharth, PostDoc, Asociate Professor, University of Essex Wivenhoe Park, UK
- Dr.Bodhisatwa Mazumdar, Assistant Professor, IIT Indore
- Dr. Velappa Jayaraman Sowmya, Professor, Hindustan Institute of Technology and Science

- Dr.A.Meenakshi, Professor & Head, Kamaraj college of Engineering and Technology, Virudhunagar
- Dr.R.Muthuselvi, Professor, Kamaraj college of Engineering and Technology, Virudhunagar

The proposal was submitted to the Centre for Faculty Development on 19.11.2022. Our proposal was accepted by the University and we were sanctioned for the conduct of FDTP on 20.12.2022.
